

WOLF-PAK®

IV POLE

1. Unpack

2. Unfold

3. Adjust

IVP3L Disposable IV Pole 12/Case

- **Portable, lightweight aluminum construction**
- **Made with recyclable materials**
- **Adjustable height for floor or tabletop use**
- **Three-leg tripod design that unfolds in seconds**
- **Disposable, sturdy, supports infusion pumps**
- **Eliminates costly tracking, pick-up, cleaning, storage and tagging**
- **Cost-effective shipping alternative compared to bulky IV Poles**

The WOLF-PAK® IV Pole is designed for patients receiving gravity or pump administered infusions. The pole sets-up in seconds with no assembly required. The height is easily adjusted up to 81". Our WOLF-PAK® IV Pole eliminates the need for home healthcare nurses or divers to pick-up the poles upon completion of therapy. The pole can be disposed of into any ordinary home waste container or they can be recycled.
