

# WOLF-PAK<sup>®</sup> SELF SAFE<sup>®</sup> SAFETY IV CATHETERS

Our WOLF-PAK<sup>®</sup> Self Safe<sup>®</sup> Safety IV Catheter is designed to minimize accidental needlesticks without requiring user activation. You're protected by a passive safety technology system that is activated automatically and cannot be bypassed. No extra, uncomfortable steps are necessary to ensure safety. Our catheters are made with polyurethane, promoting soft and comfortable in-dwelling performance.

**Easy blood visibility:**  
Clear flashback chamber allows for easy blood visibility.

**Easy insertion:**  
Push-off plate promotes one-handed technique to allow for easy insertion.

**Passive safety technology:**  
Safety shield is activated automatically and cannot be bypassed, minimizing accidental needlesticks without requiring user activation.

PIV2210W

**Easy securement:**  
Wing design promotes more user control and ensures easy securement upon insertion.

**Comfortable catheter:**  
Catheters are made with polyurethane, promoting soft and comfortable in-dwelling performance.

# WOLF-PAK<sup>®</sup>

## IV START KITS

Instead of creating storage space for numerous items which are pulled repeatedly for similar procedures, a WOLF-PAK<sup>®</sup> IV Start Kit conveniently holds all your important components in one single location. Components are packaged in order of use, enabling users to efficiently carry out procedures.

Wolf Medical's IV Start Kits allow for smoother procedures. Components are assembled, packaged, and sterilized to save time and packaging waste.
